Dear Village Pines Parents and Staff,

Be aware that Village Pines School is monitoring the Coronavirus updates. Our procedures for any illnesses are established routines.

We have always and will continue to have surfaces that are routinely cleaned with disinfectant wipes and cleaners, hand sanitizers are available and proper hand washing procedures are in place.

If your child has ANY illness or fever, they should not come to school. Use good judgement for your child and entire family and act responsibly. All of our curriculums can be accessed digitally.

Except for a few isolated areas of the US, schools are in session keeping students in regular routines. Your student's and our staff's safety and well being is of priority.

Margery Amerling
